Your best work shouldn't disappear when the project ends.

Capture your work as WorkCards. The people who were there add their own perspectives, creating a record no one person could write alone.

> *AI-polished narratives are everywhere.*
> *Credible work signals are scarce.*

WHY

Three problems. One cause: real work becomes invisible.

01 · MEMORY PROBLEM

The project ends.
What you did starts to fade.

02 · SIGNAL PROBLEM

AI can polish the story.
It can't show the work.

03 · CAPABILITY PROBLEM

Human + AI work
blurs who did what.

THE RECORD

Any kind of real work. One record.
